

Pentek® Tri-Larm®
Leak Detection System

We'll keep watch while you're away.

Home or away, water leaks can damage your home. Harness the power of real-time alerts for added home protection.

Water is a refreshing necessity and we want to help you make every drop count. When water leaks, it's not only wasting this precious resource but could cause damage if not caught early enough. Place the Pentair Pentek Tri-Larm Leak Detection System where water leaks are a risk. Be at ease knowing you will be notified of a problem with system status intelligence through the Pentair Home App. This unique battery powered device delivers notifications when it detects water leaks, temperature change and power outages.

CONVENIENT INSTALLATION

Place Pentek Tri-Larm in the basement, next to the washing machine, under the sink or anywhere a leak could occur.

POWER LOSS

Pentek Tri-Larm will alert you if power loss is detected. Know when your sump pump is not running and get an estimate of how long your appliances have been without power.

PHONE ALERTS

Combine the device's audible alarm with mobile text or email notifications to keep you informed of potential problems whether you are home or away.

FREEZE PROTECTION

Pentek Tri-Larm will detect a drop in temperature and notify you.

ORDERING INFORMATION

Catalog Number	Description	Gateway Included*	Weight		Carton Size
			Lbs	Lg
